# WeatherGuard Zip

The motorized WeatherGuard Zip is perfectly suited for large openings and high wind situations. The system is similar to our standard WeatherGuard Shade, but incorporates a "zip" detail that is welded to the two vertical sides of the fabric panel. The Zip edges of the fabric panel run inside inner channels within the side guide extrusions. These inner channels secure the fabric making the product very wind resistant.

## Options:

- Available in a square and angled head box.
- Side guides are face mounted.
- Can also serve as an insect screen.
- Hardware (case and visible brackets) available in White, Dark Bronze and Taupe.
- Wide range of fabric colors and openness choices (1% to 10%).
- Choice of single channel or multi channel remote.

## Features:

- Large enough to cover multiple openings.
- Heavy-duty Zip side channels secure fabric against wind and weather.
- Weather and insect resistant solid aluminum headbox includes built-in hinge for easy installation.
- Available to 16' x 16'
- Very wind resistant. Wind tunnel tested up to 90 MPH.
- Prevents light penetration.
- Fully retractable when not needed.
- Zip detail on the edge of the fabric means that light gaps at the edge of the system are removed.

# WeatherGuard Shade

## Motorized

For ultimate in solar control and convenience choose WeatherGuard Shades. Easily raise or lower shades with the touch of a remote. Motorized WeatherGuard Shades can be quickly and quietly positioned to block unwanted sunlight and heat with our hand held remote.

## Options:

- Comes with cable guides for secure operation in windy weather.
- Hardware (case and visible brackets) available in White, Dark Bronze and Taupe.
- Choice of single channel or multi channel remote.

## Manual Operated

Cardinal Architectural manual operated WeatherGuard Shades offer attractive and durable protection for your windows and openings. Sturdy crank makes adjustments quick and easy, even on large shades. Manual operated WeatherGuard shades feature superior styling (same hardware as motorized, shown at left) in a variety of colors.

## Options:

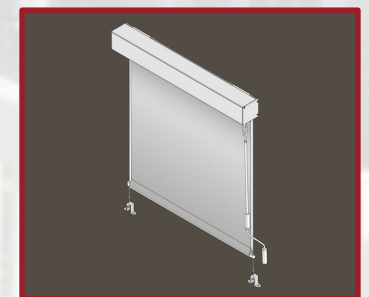

- Comes with cable guides for secure operation in windy weather.
- Hardware (case and visible brackets) available in White, Dark Bronze and Taupe.
- Manual crank handle available in 48", 60" and 72" lengths. 60" is standard.

Dark Bronze hardware with cable guide.
